

Acrylic Sheet
CELL CAST
PREMIUM

FG® is an innovating and flexible option for the most demanding design and production requirements.

FG® is a modified acrylic sheet with impact resistance and superior screw retention. The product allows perfect thermoforming keeping symmetry and color in the final piece.

FG® by Plastiglas was designed to avoid diminishes and waste in comparison to other acrylic products due to its flexibility, its high resistance to compressions and contractions and its ease to be screwed without cracking.

BENEFITS

- Superior hinge and screw retention.
- High impact resistance.
- Environmental harmonizing.
- Resistant to moisture and immersion.
- Hygienic.
- Outstanding screw, hinges and metallic elements retention.
- Thermoformable.
- Easy cutting and routing.
